New Holland Fair Next Week

The New Holland Farmers' Day Association Farmers' Fair will be held on Wednesday, Thursday, Friday and Saturday, October 4, 5, 6 and 7.

The 4-H Community Club will exhibit pigs fed by club members, and they will be judged on Thursday, October 5, and sold at public auction on Friday afternoon at 2:00 o'clock. The show is under the direction of Victor Plastow, Assistant County Agent, and is sponsored by the Rotary Club of New Holland.

The 4-H Baby Beef Club exhibit, show and sale, is under the direction of County Agent Max M. Smith, representing the County Agriculture Extension Service. The calves will be judged on Thursday afternoon at 1:00 o'clock. They will be sold at the New Holland Sales Stables after being judged.

A complete fair schedule follows:

NEW HOLLAND FAIR

Wednesday
a.m. – Hay, Corn and Tobacco Judging.
7:00 p.m. – Opening - Parade.

Thursday
1:00 p.m. – Baby Beef Show.
p.m. – Swine Show.

Friday
2:00 p.m. – Swine Sale.
7:30 p.m. – Pet Parade.

Saturday
9:00 p.m. – Finals in Tug-of-War.

Weed Meeting Planned For October 5

Arnold G. Lueck, Associate Lancaster County Agent, announced a weed control meeting to be held Thursday, October 5, at the Farm Credit Building, 411 West Roseville Road, Lancaster. George Berggren, Extension Agronomist and Weed Specialist from Penn State will be featured.

"At this informal meeting we plan to give emphasis to winter annual weeds — the ones which cause problems in hay fields. These weeds should be controlled in the Fall and early Winter. Identification of the weeds involved will be hepful to many of you," Lueck said.

Farm Calendar

Monday
1:00 p.m. — Beginning Clothing Construction Workshop, Farm Credit Building.
1:00 p.m. — Cutting To Fit Workshop, UGI Company, Conestoga St., Lancaster.

Tuesday
9:30 a.m. — Manage Better Day Workshop, PP&L, Griest Building, Lancaster.

MERVIN FELPEL, 262 Strasburg Pike, with his Yorkshire FFA grand champion at the Lampeter Fair. Mervin also had the best pen of two market hogs. He is a sophomore at Lampeter-Strasburg High School and the 16-year-old son of Mr. and Mrs. Martin Felpel.

Clair Esbenshade, Willow Street, had the best pen of four market hogs, also Yorkshires. Clair is the son of Mr. and Mrs. Wilmer Esbenshade. L. F. Photo

4-H Club Work Provides Learning Opportunities

Two and a quarter million Americans can't be wrong. Members of 4-H Clubs all over the United States are demonstrating this during National 4-H Week, Sept. 30-Oct. 7.

The 4-H program is providing learning opportunities to help tomorrow's adults prepare for economic, social, and learning responsibilities, says Leland G. Jinks, State 4-H Club leader at The Pennsylvania State University.

In Pennsylvania, over 500,000 different boys and girls have taken part in 4-H work since 1914, when the Smith-Lever Act authorized the Cooperative Extension Service and federal legislation first helped finance and conduct 4-H work.

Figures show 4-H now extends far beyond rural areas, the State 4-H leader points out. Forty-six percent of the members come from farm homes, 32 percent from rural nonfarm homes, and 22 percent from urban areas. All races and creeds, and families from all economic backgrounds are represented.

Projects are now geared to meet the needs of both urban and rural youth alike. They are educational and vary from home improvement and personal development to civic and community service.

Popular 4-H projects in which today's youth participate include plan and plant for beauty, animal science, health and nutrition, clothing, personality improvement, career exploration, home beautification, horsemanship, automotive care and safety, and teen leadership and citizenship, photography, electricity, dog, and geology.

According to Jinks, approximately 16,000 girls broaden

Smucker and Weaver Win At Ephrata Steer Show

A pair of Garden Spot High School 4-H Baby Beef enthusiasts took home the champion honors Thursday evening from the Ephrata Fair Steer Show. Mike Smucker and Sheryl Weaver did it by topping the Hereford and Angus classes respectively.

Mike, son of Mr. and Mrs. Edward Smucker, Ephrata R2, had the grand champion with Rusty his Colorado bred Hereford that came from Ingram Ranch. He is 17-years-old and a Senior at Garden Spot.

Sheryl, who will be 15-years-old today, celebrated the occasion with the reserve grand champion win with her black Angus. She is the daughter of Mr. and Mrs. Lester Weaver, New Holland R1 and a Sophomore at Garden Spot.

In the Showmanship class Larry High, son of Mr. and Mrs. Harvey High, 346 East Main St., Bareville, worked his way to the top of the crowded class. And in the fitting contest Susan

Frey And Book Have Champs At Lampeter

Fultonway Ivanhoe Jan, an Ivanhoe daughter shown by J. Mowery Frey, Jr., 401 Beaver Valley Pike, won the Holstein grand and senior championship Thursday, at the Lampeter Fair Dairy Show Shown in the Aged Cow class, Jan has four records between 608 and 683 pounds of butterfat and milk records to nearly 19,000 pounds.

Susan Ann Kauffman, Elizabethtown, was a triple winner, showing her Penn Springs Bill Topper heifer to junior champion and taking both ends of the fitting and showing contest.

Susan's father Robert had the reserve grand and reserve senior champion with a two-year-old and Frey had the reserve junior champion

In the Guernsey show, Ansmil Dividend's Coupon, showing in the three-year-old class for J. Robert Book, Kirkwood R1, and Stanley Graver, Lancaster R7, was grand and senior champion. Coupon was reserve grand champion at Quarryville last week and has a two-year-old record of 14,340 pounds of milk and 601 pounds of butterfat.

Book also had the reserve grand and reserve senior cham-

Tire And Battery Program Launched For PFA Members

The Lancaster County Farmers' Association has entered into an agreement with the Pennsylvania Farmers' Association Farm Supply Corp., a wholly-owned affiliate of the Pennsylvania Farmers' Association, to make tires and batteries available to PFA members at cost, according to Noah Wenger, County Farmers' Association President.

One of the world's largest tire manufacturers, General Tire and Rubber Company, and the Electric Storage Battery Co. are manufacturing tires and batteries for Farm Bureau under the exclusive brand name "SAFEMARK". More

Weekly Poultry Report

Eastern Pennsylvania And New Jersey Weekly Review

LIVE HENS

Prices on light type hens held unchanged, heavy type ranged unchanged to ½c higher. In instances, bids as high as 13c for well feathered small lots went unfilled. Demand fair and less aggressive on light type hens as offerings generally increased in all areas. Interest in heavy type spotty ranging fair to very good. Offerings ample in New Jersey to barely adequate in Pennsylvania. Prices paid at farm: Light type hens 4-6, mostly 5¼-5¾c; Heavy type hens 11-12½, mostly 11-11¼c.

TURKEYS

Demand fair to occasionally good on young hens from processors preparing to fill fresh iced packed needs for next week's Hebrew Holiday period Interest only fair on young toms. Overall offerings generally ample, however certain sizes occasionally barely adequate. Movement heavy on contractual agreements with shortage of labor a limiting factor at processing plants.

Eastern Shore Exchange Weekly Review

Broiler and fryer live prices averaged 10 76 cents per pound this week Prices paid during the week ranged from a high of 12 cents per pound on Monday to a low of 9 7 cents per pound on Thursday Total sales for the week totaled 663,200, down 65,500 from last week.

Fogelsville

September 26, 1967

(Prices paid dock weights, cents per pound, except where noted.)

Hens, Light type 4½-10½, mostly 5-5½; Hens, Heavy type 6-24, mostly 8-12½; Pullets 8-41, mostly 19-34; Roasters 9½-33, mostly 20-32; Ducks 12-29½; Drakes 21½-35; Turkeys, Hens 22-32½; Rabbits 8½-32, mostly 18-25; Guineas 59-70, mostly 60-65; Pigeons (per pair) 65-145, mostly 70-85; Jumbo Squab 85-90.

Total coops sold: 726.

Now here's an all-new Purina calf-growing ration, specially formulated to help you grow dairy herd replacements fast, breed them early, and freshen them between 22 and 24 months.

New Calf Growena helps you feed heifers at low cost from two to six months, yet gives them the protein and energy they demand. It's fortified with vitamins and minerals growing calves need.

Purina Calf Growena is the new member of the calf growing team. To grow heifers fast, feed Purina Nursing Chow to 4 or 5 weeks and Calf Startena to 2 months. Then, because they still need a high level of protein and energy, give them increased nutrition with NEW Purina Calf Growena.

Start your next bunch of heifers growing fast and producing early.

Get Purina Calf Growena. At the store with the Checkerboard sign.

Best Wishes 4-H CLUB MEMBERS

Starting today, September 30, is National 4-H Club week throughout Lancaster County and the nation. According to Jay Irwin, Assistant County Extension Agent, the 2,076 County young people in the 82 local clubs are encouraging others to join them in 4-H learning experiences.

The 4-H Creed is:

"I believe in 4-H work for the opportunity it gives me to become a useful citizen.

"I believe in the training of my Head for the power it will give me to think, plan, and reason.

"I believe in the training of my Heart for the nobleness it will give me to be kind, sympathetic, and true.

"I believe in the training of my Hands for the ability they will give me to be helpful, skillful, and useful.

"I believe in the training of my Health for the strength it will give me to enjoy life, resist disease, and make for efficiency.

"I believe in the United States of America, and in my responsibility for their development.

"I am therefore willing to devote my efforts for the fulfillment of these things which I believe."

Even President Johnson got into the act with an open letter to all 4-H members. He said, "Your theme for 1967 is widely chosen. This is, indeed, "The World of Opportunity," And this is a wonderful time to be alive, for it is filled with opportunities to serve our fellowmen in rural America, in our cities, and around the world.

"Our country's progress is based on the knowledge, skills, vigor and courage of its youth. We depend on young citizens for leadership and service. It is thus heartening to know that you are equipping yourselves for this responsibility through 4-H work.

"I hope each of you is able to influence other young people to follow your example as you develop your head, heart, hands and health through 4-H."

So, from the entire staff at **Lancaster Farming**, to all Lancaster County 4-H youth and your extension and parent leaders, congratulations on this your National 4-H Club Week, and best wishes for continued growth in the coming year.

★ ★ ★ ★

Unselfish Leadership

How many hours a year do the 300 local 4-H parent leaders unselfishly spend helping with club projects? Fifty, one hundred, two hundred, or more? We don't know and we doubt if they have ever stopped to count either. But it's certain they are providing a learning experience for our boys and girls that can not be measured in dollars and cents.

Under this leadership our youth both learn to win and lose graciously. Also with a club project to occupy minds, our farm youth have less time to be destructive. This not only means better men and women in the future but a better community now.

At least that's the way it looks from where we stand.

A Fortunate Nation

"Although we are a fortunate nation, our food abundance didn't just happen. . . . we have to fight 10,000 kinds of insects for our food. We have to combat 1,500 plant diseases, and 250 animal diseases. We have to fight spoilage and decay. The result of this battle to protect our food is evident. In our own country, food quality is high, the abundance great, and the cost relatively low. Overseas, we have supplied 98 per cent of food aid received by the less developed nations. Protecting our food is a giant job, and a vital one for both America and the world." — Orville L. Freeman, Secretary of Agriculture.

Across The Fence Row

The fellow who thinks he knows it all is especially annoying to those of us who do.
— Holstein-Friesian World—June 10, '65

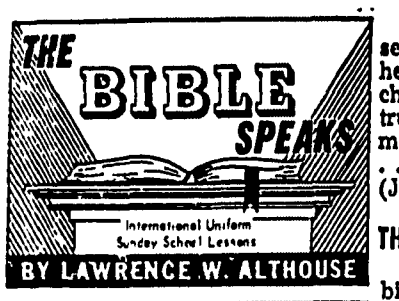
Then there is this story: A young farmer's wife who had agreed to the purchase of a new tractor instead of the dining room set she had wanted protested when she found that her husband had ordered one with power steering at extra cost.

"But dear," the husband explained, "It won't cost more. All we have to do is pay a little longer."

Weather Forecast

The five day forecast for the period through next Wednesday is expected to bring temperatures averaging below normal. A high is expected of 60 degrees and and over night low of 40 in the North and in the high 40's in the South. Normal high at Harrisburg is 72 and the normal low is 50 degrees.

Rain may total about one-half inch occurring at the beginning of the period and again about Tuesday.



A DARK AGE?

Lesson for October 1, 1967

Background Scripture: 2 Kings 14 23 through 17:41 Amos 8 4-11.
Devotional Reading: Psalms 47.

Jesus said that a prophet is not without honor, except in his own country. He went on to dramatize this when he was rejected by the people of Nazareth, his own home town.

He might well have added "in his own time." People can appreciate the prophets of the past and anticipate the prophets of the future, but there is seldom much enthusiasm for the prophets of our own day.

Rev. Althouse

In one of James Thurber's stories there is a house full of clocks. On these clocks the time is always "then," never "now." That, it seems, is the right time for prophecy: "then," not "now."

PEOPLE IN THE DARK

In school we all studied about those times which are called "the Dark Ages." People who lived in the "Dark Ages," however, didn't know that they were dark. Of course, that's the way it always is: the people who live in darkness rarely understand how dark the times really are. It takes a later generation to look back and make that judgment, to appreciate the prophets whose warnings, for the most part, had gone unheeded.

How do you know when you live in a "Dark Age"? The obvious answer is that most people do not know. Fortunately, however, God does give each "Dark Age" a few men who would tell us, if we would listen. The problem, of course, is that we do not want to listen. We would prefer pleasant disscoures on the brightness of our age, even though the light has long become dim or even gone out.

No wonder Jesus Christ himself was so poorly received when he came: men ignore the light and choose to walk in darkness. "The true light that enlightens every man was coming into the world . . . yet the world knew him not" (John 1:9-10 RSV).

THE TIME IS RIPE

Today we look back to those biblical "dark ages" and revere the great names of Amos, Hosea, Jeremiah, Isaiah, Micah, and others. Yet, though we honor them today, then were hardly well received by the people in their own time. Why? Because it was a time ripe for prophecy, an age in need of God's spokesmen. And, because it was such an age, it rejected its prophets — as we do today.

What kind of an age was it? Actually, on the surface, it appeared to be a "golden age," not a time of darkness. For one thing, it was a time of unprecedented material prosperity for Israel and Judah. This wealth was the result of an ever-increasing trade and commerce.

Yet the "golden age" was only superficial, for it was an era of oppression and injustice. One of the reasons that the rich were so rich was that they used their wealth to continue to amass even more while the poor got poorer. Civil law, it seemed, existed only for the benefit of the wealthy. The poor could not get it, for it had to be bought and the price was high.

WHO NEEDED GOD?

Furthermore, it was a time of social decay and religious irrelevance. Official religion was flourishing and the rituals were rich and colorful. But it was a religion divorced from morals, giving mere lip-service to God and not affecting the relationships between men. Actually, it was a time when both nations felt so strong, that they did not really need God — or so they thought. They were smugly confident in their own cleverness and power. They hadn't gotten rid of God; they had simply taken over his job!

Look, they said, we're successful, prosperous, growing: doesn't that prove that God is satisfied with us? The prophets said a loud "NO!" The people called them "traitors" and ignored them.

Does this dark age sound uncomfortably familiar? It should.

For Full Market Reports Read LANCASTER FARMING

NOW IS THE TIME . . .

By Max Smith
Lancaster County Agent

To Topdress Alfalfa . . .
Established stands of alfalfa may be fertilized this fall after the removal of the last cutting The use of a phosphorus-potash fertilizer now will permit time for the roots to store the plant food for greater yields next summer; in addition, there may be more time to apply the fertilizer now than following the first cutting next summer.

To Plant Evergreen Shrubbery . . .
Property owners who are interested in planting evergreens such as yews, junipers, and hollies may do so with success by making these plantings by the middle of October. This will permit the plant to get set before freezing weather arrives and will improve moisture conditions around the plant as compared to next spring's plantings.

To Permit Corn To Dry . . .
Corn plants continue to be high in moisture and the ears are slow to ripen; this may continue to be slow until we have a killing frost. Corn that is to be picked or shelled and stored without the use of mechanical drying practices, should be given time to dry on the stalk Most field corn is still above 25% moisture and will not dry sufficiently in the normal cribs under present conditions. This year it is quite likely that many fields of corn will not be ready to pick before the small game gunning season.

THE FARMER'S SHARE

How often have you wished you could repeat statistics which would have enabled you to put the other fellow in his place when he blamed the farmer for high food prices?

The, U.S. Department of Agriculture has completed a survey that shows the farmer's share ranges from 71 percent for butter to seven percent for canned beets.

Of the 62 key farm produced products, the farmer, in 1965, received 39 percent of the money paid by housewives in retail stores. For these same items, in 1947, the farmer received 51 percent of the retail price.

The farmer's share has been steadily decreasing since 1947 to a low of 37 percent in 1964. It rose slightly to 39 percent in 1965.

Listed below are some of the food items and the farmer's share of the retail price:

Produce	Retail Price cents per unit	Farmer's share
Butter	74.4	71%
Beef, choice	70 8	60
Eggs	51 5	57
Lamb, choice	70.0	56
Frying chickens	36 3	54
Pork	52 3	51
Orange juice, con	31 0	48
Milk, fresh sold in store	47 7	46
Cheese, proc.	36 7	41
Milk, fresh home del	52 3	41
Potatoes	75 7	37
Flour, white	56 7	35
Oranges	88 1	33
Apples	17 7	31
Margarine	26 0	28
Ice Cream	80 4	24
Bread, white	20 7	19
Peas, frozen	21 0	15
Peaches, can.	33 2	14
Corn, can	19 0	13
Beets, can	16 7	7

CONSERVATION — WATER

The old, old saying "You never miss the water till the well runs dry" has had much meaning for many of us during the past few years Today, water is used as if the supply were limitless The average U. S family of four uses about 550 gallons a day Yet the total U S usage of water comes to more than 1600 gallons per person To explain this difference – to make a net ton of rolled steel requires 110,000 gallons of water To produce a ton of synthetic rubber requires 660,000 gallons of water. Just to make a loaf of bread – grow the grain, process it, bake the bread and wrap it – takes 500 gallons of water. Then you eat the bread – and get thirsty.

HORNCO FEEDS - - - The Growing Choice of Business Farmers

NED SITLER, JR.

1961

To

1967

WE ARE PROUD TO ANNOUNCE THE PROMOTION OF NED SITLER JR. TO HE POSITION OF ALLIED PRODUCTS MANAGER

In 1961 we proudly announced the appointment of this man as our Lancaster County feed representative. During the past 6 years Ned has made many friends in Lancaster County and greatly enlarged the list of farmers using HORNCO FEEDS. Ned has now earned himself a promotion. Ned will be bringing John Herr (area manager for Lancaster, Lebanon and Chester Counties) around to your farm in the near future. We are sure you will accept and have confidence in John as you did in Ned. John Herr's phone number is Area Code 717-867-3141 — Call anytime for help with your feeding problems.

HORNCO FEEDS

Thoroughly Trained Servicemen — another reason why more Lancaster business farmers are using Hornco Feed — than ever before.

Farm Women

Society 4

Society of Farm Women 4 held their annual banquet at Hostetter's, Mount Joy, on Sept. 23 with 56 members and guests attending

Mrs Alfred Bartholomew was the guest speaker She spoke of a trip she and her husband had taken to the countries of Greece, Italy, India and Japan. She showed items representing each country.

Entertainment was provided by two members of the Lancaster Opera Workshop chorus. They were Mrs Eileen Martin and Mrs Nellie Lull Luanna Lull accompanied the duet at the piano

Group singing was led by Willis Nolt A donation of $50 was given to the County project, the Farm and Home Foundation A bus trip is planned Oct. 14 to Jim Thorpe's place in the Poconos Reservations are to be made with Mrs. Frank Jones, 153 College Ave, Mountville, Mrs Richard Wile, 129 E. Main St., Mountville; Mrs Daniel Forry, Columbia R2, and Mrs Victor Koser, Mount Joy R1.

On Oct 21, Society 4 will be entertained by Society 3 at the Lincoln Lutheran Church, Ephrata, at 12 15 p m. The next meeting of Society 4 will be Oct. 28 at the home of Mrs Koser. Election of officers will take place at this meeting.

SHOULD BABIES AND YOUNG CHILDREN HAVE VERY SMALL TOYS TO play with? No. Babies and young children should never have toys smaller than their fist; nor should there be small, removable parts like buttons, eyes, wheels, etc. They like to put everything into their mouths, and small things can be ingested and cause choking.

CALVES PRESENTED AT LAMPETER FAIR (left to right) The Guernsey calf presented to Paul Eckman, Strasburg R1, from Lampeter-Strasburg High School, by Robert Breneman, representing the Lancaster County Guernsey Breeders; the Ayrshire calf presented to Leon S Boll, Lititz R1, from Warwick High School, by Roy Mentzer, Lancaster County Ayrshire Breeders and the Holstein Calf presented to Nelson Wenger, Manheim R2, from Manheim Central High School, by Donald Eby, Lancaster County Holstein Association.

Farm Women Will Mark Anniversary

The Society of Farm Women 1 will celebrate its 50th anniversary with a dinner meeting at the Lititz Church of the Brethren today, Sept 30 at 12 30 p m to which all former members have been invited

The Society of Farm Women 1 was the first society to organize in Lancaster County On January 27, 1917, the first group of women met

Their purpose was social improvement, enlightenment of important topics of the day and taking up matters of mutual benefit to the community

The Society was first named "Die Hausfrauen" by Mrs Frank Black, Somerset County, who was the originator The name was adopted because Pennsylvania is Dutch and its success in agriculture is attributed to these thrifty people The name was also a tribute to our forefathers In November 1917, because of World War I, the name was changed to its present title

The Rev Harry T Richwine, Lebanon will be the guest speaker The program will include devotions by Mrs Scott Garman, a reading by Linda Ulrich, a historical reminiscence of the Society by Mrs Martin Moore, and a vocal solo by Mrs Howard Erb, a former member accompanied by Mrs Roy Brubaker Mrs Neil Clark will serve as the Mistress of Ceremonies

The planning and program committee for the affair consisted of Mrs Daniel Brubaker Mrs Clark, Mrs Moore, Mrs Willis Bucher and Mrs Roy Brubaker Mrs Graybill Hollinger is in charge of the decorations.

Why is it dangerous to run electric cords under rugs? Cords under rugs are dangerous because the undue wear may rub insulation off the wires and cause fire.

Twenty years ago the U. S. Dept. of Agriculture inaugurated the National School Lunch Program to improve the dietary habits and thus the nutritional well-being of children and teen-agers attending public and non-profit private schools. Nutritionally balanced meals are served by using foods in each of the four basic food groups–milk, meat, fruits and vegetables, and bread and cereals. The Child Nutrition Act of 1966 further extends the benefits of school feeding program to children in preschools operated as part of a regular school system. The Act also provides for a breakfast program for the first time.

What is the safest way to light a gas oven? A.) First open both oven doors so that any gas which may have accumulated can escape. B.) Stand to one side so that you aren't in the path of a flashback or explosion. C.) Light the match. D.) Turn on the gas and then apply the match.

Commending the accomplishments of 4-H work, Governor Raymond P. Shafer formally endorses this year's observance of National 4-H Club Week, Sept. 30 to Oct. 7. Seated with the Governor are two outstanding Commonwealth 4-H members, Thomas Jeffries of RD4, Uniontown, and Ann Carson of RD1, Claysville. Standing, from left: State Secretary of Agriculture Leland H Bull and Leland G. Jinks, State 4-H Club leader at The Pennsylvania State University.

4-H Club Work

(Continued from Page 1)

their understanding of clothing buymanship, selection, and construction by taking clothing projects in the Commonwealth. Another 12,000 girls are participating in foods and nutrition, home management, and family life education projects.

Over 12,000 Pennsylvania boys and girls raise and care for livestock projects, and another 7,200 learn more about growing horticultural crops.

A project in 4-H leadership is attracting about 3,000 of our state's youth who serve as teen leaders in their local clubs, the Penn State official said At the same time these members are helping younger members with their 4-H work, they are helping themselves learn more about the roles of leadership.

Guiding, supporting, and enriching the program of the local 4-H Club is a professional staff of county, state, and federal Extension workers They provide the educational framework for 4-H, conduct training meetings for volunteer leaders, and provide expanded opportunities for members to participate in county, state, and national events.

"This is a good time to check into the opportunities the 4-H program can offer you," Jinks emphasized "Your Cooperative Extension Service Office is your local 4-H information center located in each county throughout the Commonwealth.

In Lancaster County the phone number to call is 394-6851.

Pollution, Waste Threaten Health and Natural Resources

Something must be done soon to preserve the nation's natural resources or by the 21st century, American living conditions will be worse than in over-crowded and polluted regions in the Orient Outdoor recreation as enjoyed today by millions of families will be a thing of the past

Pollution of air and water already is a reality. Rivers and lakes are dying prematurely, taking along fish, wildlife and other life dependent on water. Lake Erie, one of the five Great Lakes, is the latest casualty. Lake Michigan and Lake Ontario also are heading for extinction, experts warn Forests and land are being needlessly destroyed or misused

These are the predictions made by conservationists concerned about the 300 million Americans who in the year 2000 will be living on the same 3 4 millionsquare miles inhabited by 200 million persons today

To insure that these 300 million men, women and children will enjoy smog-free air, unpolluted water and the wide open spaces, a constructive conservation and resource policy is necessary So believes U S Secretary of Agriculture Orville L. Freeman

Federal and state conservation agencies already assist the Cooperative Extension Service in the national 4-H Conservation of Natural Resources program. This particular 4-H program serves many needs in both rural and urban areas

Conservation education has spurred enrollment to an all-time high of nearly 270,000 youth, according to the Extension Service. The aim of the program is to teach life and how it depends on proper management of natural resources

Vorlex®

...THE ONLY COMPLETE SOIL FUMIGANT

It takes a complete soil fumigant to protect your tobacco crop from soil pests to insure a healthy start for *every* plant. Vorlex is the only *complete* soil fumigant on the market today. Don't fool around with "part-job" fumigants . . . insist on Vorlex—the *complete,* whole-job soil fumigant—you'll get more pounds of tobacco per acre—more profits too!

APPLY VORLEX IN EITHER OF TWO EASY WAYS!

Row Fumigate—*All* types of nematodes, soil disease, and weeds, can be controlled by Vorlex when it's applied as a row fumigant . . . and at a cost starting as low as $20.00 per acre!

Or Broadcast (overall) Fumigate—Vorlex can also be used as a broadcast fumigant to control nematodes, soil disease, and soil insects.

Either method of Vorlex application can provide a healthy stand with even growth; plus uniform maturing and a bigger yield.

Each year Vorlex fumigate your entire tobacco acreage . . .
get more tobacco per acre—more profits for you.

VORLEX is great for vegetables too! TRY IT!

How would you put out a grease fire in your frying pan? The simplest way is to turn off the gas and put a cover over the fire in the pan or throw baking soda on the burning grease. Never use water on burning fat or oil. Also a thick hand-towel well soaked with water is sometimes sufficient to cover the blazing pan and put out the fire.

Corn Virus No Threat In Pa., Says Penn State Pathologist

Maize dwarf mosaic virus, considered a potential threat to field corn yields when first observed in Pennsylvania three years ago, poses no serious problem, a plant pathologist from The Pennsylvania State University stated recently during annual meetings of the American Phytopathological Society in Washington, D.C.

"We have maize dwarf mosaic virus in most of Pennsylvania but it may never be as destructive of corn yields as predicted three years ago," declared David R. MacKenzie, graduate assistant working with Penn State's program to develop corn lines resistant to the virus.

MacKenzie based his comments on three years of work collecting and analyzing corn plants infected with the virus throughout Pennsylvania. Under the direction of Dr. Clifford C. Wernham, plant pathologist in charge of corn disease studies, Penn State has a long-range program underway to develop corn varieties resistant to maize dwarf mosaic virus and other diseases.

Severity of the disease depends upon the strain or race of the virus, MacKenzie explained. So far two strains have been found. Strain A seems to be the most destructive but is seldom found in Pennsylvania. Strain B is found often in the State but only delays maturity of the corn.

The virus does remain a threat to yields of late maturing sweet corn, he pointed out Such sweet corn stands a chance of being severely stunted with small and unfilled ears. The disease was first found in Pennsylvania in a field of late-planted sweet corn.

In their experiments, Dr. Wernham and associates have designed a mobile air blast machine capable of inoculating two acres of corn with the virus in a day. Air pressure from the machine actually forces virus particles into the leaves of corn plants.

● Tire & Battery

(Continued from Page 1)

than twenty other state Farm Bureaus are already making the "SAFEMARK" tires and batteries available to members.

All standard sizes in the premium safety grade of passenger car tires and first line premium truck and tractor tires, as well as a complete line of top grade passenger, commercial, and tractor batteries will be offered Lancaster County Farmers' Association members, Mr. Wenger said. The cost will be the factory price plus a very nominal distribution charge which will make them available to members "at a very substantial saving," the County Farmers' Association president declared.

"SAFEMARK" items may be purchased by any member of the Lancaster County Farmers' Association by presenting his T & B Service Identification Card, issued by the County Secretary. Also businesses handling tires and batteries to be announced later.

"SAFEMARK" items will be guaranteed by the Pennsylvania Farmers' Association Farm Supply Corp. and Service Agent will make necessary adjustments on the basis of the original cost of the item with no cost for mounting or installing replacement items.

"This is strictly a service-to-member program, instituted to help cut costs of production and thereby increase net income of our members," the county organization leader explained.

Airborne 'Eye' Detects Forest Fires Thru Smog

USDA has developed an airborne electronic eye capable of pinpointing the smallest of forest fires, even when visibility is obscured by darkness, smog, haze, or dense drift from other fires, Secretary of Agriculture Orville L Freeman announced last week The new detection method, known as Fire Scan, was utilized to detect more than 150 forest fires in Montana, Idaho, Oregon, and Washington during the recent forest fire emergency in the Northwest.

Combinations of heat sensing and electro-optical techniques are employed in the system, which uses an infrared scanner mounted to the belly of a twin-engine aircraft. The scanner is coupled with a display unit which permits almost instant viewing of fires on a screen within the aircraft after a rapid film processing unit records the imagery.

The project, being conducted in cooperation with the U S Department of Defense, utilizes a Convair aircraft loaned by the U S Air Force The flying laboratory is headquartered at the Forest Service's Northern Forest Fire Laboratory, Missoula, Mont Scientific leader of the program is Forest Service Electronic Engineer Stanley N. Hirsch.

Demonstrate the safest way to lift a heavy object from the floor. Get close to it, bend the knees, keep the back straight, and put one foot slightly ahead of the other Don't be afraid to ask for help with heavy objects. Bending from the waist may cause a strained back or rupture.

What's Cookin' Club Participating In 4-H Week

Three members of the Lititz 4-H What s Cookin' Club, shown above, left to right: Sharon Kreider, Denise Jurell and Carol Kreider, display the useful projects they accomplished while attending meetings during the summer at the home of their leader, Mrs. Willis Bucher.

These projects demonstrate a few of the diversified activities carried on by the group of girls which also included preparation of food items, sponsoring fund raising projects and planning community projects.

This club represents a small group of organized 4-H club members who are "learning by doing" and who will be saluted during National 4-H week being observed from September 30 to October 7.

The aims of 4-H week are to encourage boys and girls age nine to 19 to join 4-H clubs, influence capable men and women to become volunteer leaders, recognize substantial contributions of the parents to the 4-H program and to solicit their continued co-operation; and to acquaint the public with the changing and expanding program which fits the needs of all modern youth.

The 4-H organization is part of the national education system of the cooperative extension service in which the US Department of Agriculture, State Land Grant Universities and counties share Professional extension agents aided by local advisory committees and resources of Penn State University, conduct programs upon local needs.

Awards are made available to club members in order to stimulate interest and achievement. Youngsters from families of all economic backgrounds and from all races and creeds are welcome in 4-H organizations.

CORN PICKERS ARE DANGEROUS

Accidents are more likely to happen when corn pickers are not in good working condition, caution extension agricultural engineers at Penn State University. Carelessness around corn pickers and other heavy mechanized farm machinery can result in painful and crippling accidents.

Ice cream and other frozen dairy foods were consumed last year at the same record-setting level — 21.3 quarts per person —as in 1965. Per capita use of ice milk reached a record high of 5 0 quarts.

What is the difference in meaning between the words "flammable" and "inflammable"? There is no difference Both mean "will burn." The term which means "will NOT burn" is "nonflammable" Glass is an example of nonflammable material.

What should you do if your clothing catches fire? Tear off the flaming garments if you can. Lie on the floor, if possible, to avoid inhaling smoke and flames; roll yourself into a rug, blanket, or woolen coat. Put out smoldering remnants by applying water-soaked towels or rugs.

Dairy Banquet Set For Oct. 20

In a letter addressed to 4-H Dairy Club members, Victor Plastow, Associate Agricultural Agent for Lancaster County, announced Friday, October 6, as the deadline to mail dairy project books to him. "I must have the books by this time in order to complete your records before banquet time," he said.

The annual 4-H Dairy Banquet will be held Friday evening, October 20th at 6:45 p.m. at the Plain and Fancy, located about 12 miles east of Lancaster on Route 340 (Old Philadelphia Pike). At this time, many trophies and awards will be made for Showing, Fitting in Junior and Senior Division, as well as Breed Champions and over-all record book scores.

BAD REPUTATION

The bite of the tarantula, despite legend, is not dangerous to man, though it can be painful. The tarantula, which sometimes attains a length of two inches, is quite harmless and can even be trained as a pet

Pennsylvania Millers and Feed Dealers Elect New Directors

Paul J. Green, Farmer's Supply Co., Walkersville, Md. was elected president of the Pennsylvania Millers' and Feed Dealers' Association at its 89th Annual Convention held September 20-22, at the Hotel Hershey, Hershey, Pa. Mr. Green's term begins January 1, 1968 as does the term for other officers and directors elected at this meeting. Mr. Green replaces Milton F. Godshalk, Flory Milling Co., Bangor, Pa.

Other officers elected include Quentin S. Snook, Snook's Mill, Mifflinburg, 1st vice president; George W. Robinson, Kreamer Feed Store, Kreamer, 2nd vice president; John B Pritts, Canonsburg Milling Co Canonsburg, 3rd vice president; Robert B. Graybill, Miller & Bushong, Inc., Rohrerstown, treasurer and Donald W Parke, Lancaster, secretary

The following directors were also elected to serve the Association for terms beginning January 1, 1968 Raymond Colvin Kinter & Grove, Dillsburg, James Pysher, Central Soya, Camp Hill; J Mauser Lerch, Mauser Mill Co, Treichlers, Joseph Wehrle, Mahoning Valley Milling Co, Punxsutawney, James McBroom, McBroom Feed and Garden Supply, Derry, Ned L Clark, Clark's Feed Mill, Shamokin; and Carl Baier, Bay State Milling Company, Camp Hill.

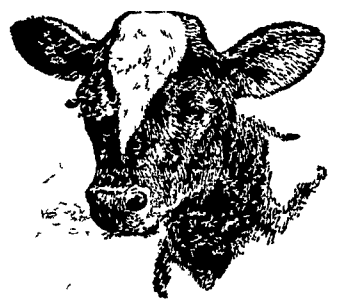
Other directors of the Association whose terms were not affected include H Carl Deibert, Deibert Feed Service, Bedford, Richard R Gehman, Reedsville Milling Co. Reedsville; William Kintner, Kintner Milling Co, Meshoppen, Robert Thompson, Thompson and Mateja, New Wilmington; Eugene E. Eby, H. R. Wentzel Sons, Inc., Newport; John J. Hess II, Paradise; William H. Sprenkle, Spangler & Sprenkle, Inc., York and Thomas R Zeigler, Zeigler Brothers Feed Mill, Gardners.

Approximately 300 persons attended the three-day convention of the state-wide trade association of feed and flour mills A wide variety of subjects were discussed under the theme "Organize for the Future". Lt. Governor Raymond J. Broderick, Pennsylvania Secretary of Agriculture Leland H Bull, H W. Campbell, Ralston Purina Company, Camp Hill, A. J Nixon, Penn Dairies, Lancaster, Dr Robert F. Gentry, Pennsylvania State University, Henry R. Geisinger, Pennsylvania Association of Milk Dealers, Harrisburg. Donald L Ace, Pennsylvania State University and Dr. John A. Hoch were among the speakers from Pennsylvania

Out-of-state speakers included Frank T Heffelfinger II, Peavey Company, Minneapolis, Minn who is currently serving as president of the Grain and Feed Dealers National Association, Dr E Paul Taganides, Ohio State University, Ernest H Tessmer Jr., Central Soya, Chicago, Ill and Dale W McMillen Jr, president of Central Soya from Fort Wayne, Ind

Other features of the Convention Meeting included exhibits, golf, entertainment and a ladies program The 1968 convention will be held at Pocono Manor, September 29, 30 and October 1, 1968

HERE'S THE CONVENIENT AND PRACTICAL WAY TO RAISE A CALF!



feed your calves

RED ROSE

MILK REPLACER

Your calves are your future milking cows and they need a good start in life! That's why it's important to feed them Red Rose Milk Replacer. It provides added vitamins A and D, trace minerals and antibiotics that young calves need. It's so practical and economical to use — and let's you sell all of your market milk

This season, feed Red Rose Milk Replacer. You'll have better calves if you do.

IF YOU ARE A HORSE OWNER ...HERE IS THE FEED YOU NEED TO ASSURE BALANCED NUTRITION!

RED ROSE FOAL FEED

This feed provides balanced protein and energy and high levels of calcium, phosphorus and vitamin D so essential to the development of bone Horses reach early maturity when they are fed Red Rose Foal Feed. Try it.

DON'T FORGET MINERALS!

Dairy cows, heifers, steers and horses need minerals that pastures cannot supply. Red Rose "Super" Mineral contains calcium, phosphorus, fluorine, iron, manganese, zinc, copper, cobalt and iodine — all the minerals needed to guard against deficiency. Be sure Red Rose "Super" Mineral is in your feed troughs.

THESE RED ROSE DEALERS CAN SUPPLY ALL OF YOUR FEED NEEDS:

Training and experience received in 4-H helps youngsters in future career choice.

WHEN USING A GAS OR OIL SPACE HEATER IN A ROOM, WHY WOULD you be sure the room is well ventilated? Burners exhaust the oxygen in the air and it must be replenished Otherwise it can cause asphyxiation or carbon monoxide poisoning. The flame may even go out and allow gas to escape It is dangerous to leave the heater on all night

A horse can be full of hay, and still ride mighty hard.

MILLER

SMALL GRAIN SUPREME 5-11-14

with Rheolite ®

A quality fertilizer designed to help the grower achieve higher gain yields and make more profit. Miller's Small Grain Supreme offers the following extras:

1. Stronger straw to help prevent lodging.
2. More uniform crop with fuller kernels.
3. Crop will ripen more evenly.
4. Crop is in better condition for overwintering — less plants lost.
5. More nutrient value in the harvested crop.
6. Is a mineralized granular product.
7. Contains RHEOLITE ® — Miller's organic fertilizer lubricant which insures free flowing qualities.

ASC Community Committees Newly Elected

Results of election of ASC Community Committeemen for the year starting October 1st were announced this week by Fred G. Seldomridge, Chairman, Lancaster County Agricultural Stabilization and Conservation Committee. The elections were held by mail and ballots were tabulated publicly by the incumbent ASC County Committee.

The ASC Community Committee chairman, vice chairman and regular member automatically becomes delegates to the county convention where farmers are elected to fill vacancies on the ASC County Committee. The alternate committeemen become alternate delegates to the convention.

The County Convention was scheduled to be held last evening at 7:30 p.m. in the Lancaster County ASCS Office, 1466 Manheim Pike, Lancaster, Pa. Delegates will elect one County Committee member for a 3-year term and two alternate members for a 1-year term. After the county committeemen are elected, the delegates will determine which of the three regular members will serve as chairman and vice-chairman for the coming year.

Present Committee includes Fred G. Seldomridge, Chairman; Elmer L. Huber, vice-chairman, and John J. Herr, Regular Member. Mr. Seldomridge has completed his second year of a 3-year term, Mr. Huber, his first year of a 3 year term, and Mr. Herr, his last year of a 3-year term.

ASC County and Community Committeemen are in charge of local administration of farm-action programs such as the Agricultural Conservation Program, Cropland Adjustment Program, Feed Grain and Wheat Programs, acreage allotments, Wool Program, price support loans and farm storage facility loans.

Fulton Grange Honors Fifty-Year Members

Eighty people were in attendance at the annual Booster Night smorgasbord covered-dish supper and program of the Fulton Grange at Oakryn September 25. Master Clifford W. Holloway Jr. welcomed the group and presented Golden Sheaf certificates and gold pins to the following fifty year members: Mrs. Edith Lamborn, Mr. and Mrs. Clyde McSparran who in turn spoke briefly of their years in the Grange. Mrs. Sara Etta Boyd, deceased ten days before, would also have received fifty year awards Mrs. Jesse Cutler received a Silver Star certificate and pin for twenty-five year membership.

Mrs. Lamborn was a former member of Newtown Square Grange #1279 and Goshen Grange #121 in Chester County and filled various offices there before coming to Fulton Grange thirty-five years ago. She is a retired school teacher, having taught for nineteen years in Chester and Lancaster Co schools. She resides near Bethesda

Mr and Mrs McSparran live in Drumore Township, near Fairfield, on a farm which has been in the family for 87 years Mr McSparran retired from farming seven years ago Both are Sixth Degree members and he is a Seventh Degree member of the Grange

Mrs Boyd was a Seventh Degree member of the organization and held various offices of Fulton Grange and the Lancaster County Pomona Grange

Mrs Cutler lives near Susquehannock State Park on a dairy farm overlooking the Susquehanna River which is noted for the vantage point known as Cutler's Point. She was a former member of Covington Boro Grange #1018 in Tioga County before joining Fulton Grange in 1945. She is a Seventh Degree member and organized Fulton Junior Grange #343 in 1948 and served as its Matron. She is a teacher in the Lampeter-Strasburg School District.

State Trooper Edwin Grazer of Troop J, Lancaster Barracks, gave an address on Safety and displayed highway fatality posters.

Mr. and Mrs. Clifford Holloway are delegates to the Penna. State Grange convention to be held at Gettysburg Oct. 23-26. Mr. and Mrs Gyles Brown are alternate delegates.

Fulton Grange's float in the Southern Lancaster Co. community fair parade Sept 22 placed second as the best appearing farm group.

Thomas Galbreath will handle Fifth Degree applications, for Fulton Grange members, which will be given at Oakryn October 14

Anyone desiring to attend the State Grange session at Gettysburg October 25 to take the Sixth Degree should contact Gyles Brown for bus reservations.

The newly elected officers will be installed at the next regular meeting, October 9.

Sale Register

SAT., SEPT. 30 at 2 P.M. — Public sale of 118 acre fram located 5 miles northwest of Manheim between East Fairview Church and Hossler's Church, Rapho Twp., Lancaster Co., Pa. Terms by Samuel H. Shelly, and Daisy Shelly.

P. B. GUERNSEY DISPERSAL
(Harry Shenk Est., Owner, Strasburg, Penna.)
THURSDAY, OCTOBER 12, 1967 — 12:30 P.M.
At the Ass'n. Sales Pavilion, Lancaster, Pa.
73 HEAD — 1 BULL — 36 COWS — 14 BRED AND 22 OPEN HEIFERS
GOOD DHIA RECORDS
T. B. & Bangs Cert. Vacc. Dehorned

The late Harry Shenk was one of the pioneer Guernsey breeders in Penna. Over the last 30 years Harry moved twice, each time sold out and then started again. We have had the privilege to manage these sales. His sound judgment and cow knowledge benefited the buyers of his cattle. He was always ably assisted by Mrs. Shenk, who is still living but is unable to carry on.

The herd has been under the direct management of Dave Sharp for the last few years, a conscientious dairyman and farmer who has kept the herd in top condition.

The buyer will find many fresh or due to his liking; 32 will have been recently fresh or are due before the end of the year. 12 from January through March.

Many popular bulls represented. 14 in calf to High Meadows Conqueror, 11 to McDonald Farms Royal Crown, etc. There are some extremely good cow families.

There is money to be made in a purchase of the open heifers for those who have feed and either need them as replacements or wish to offer them for sale at a later date.

recutter
High-Moisture Corn

Gehl "400" Recutter fits short or long trough blowers. Slices high moisture ear corn, low moisture silage, or hay to palatable, tasty livestock bites Every kernel is cut to just the right size . . . so it doesn't (1) pass through livestock undigested (2) become unpalatable to livestock (3) lodge in mechanized equipment. Feed is cut (water may be added at the blower) and elevated to silos with one power unit Cutting cylinder consists of four hardened steel, 20-in. knives, operating at 1700 RPM. Screen sizes range from ½-in. to 3-in.

Charles Ord Replaces PFA's H. A. Hatfield

Charles Ord, formerly with the Iowa Farm Bureau Federation, has been employed as administrative secretary of the Pennsylvania Farmers' Association, according to an announcement made this week by PFA President G. A. Biggs. Mr. Ord replaces Hollis A. Hatfield, who was promoted to the research staff of the American Farm Bureau Federation (AFBF). The PFA is an affiliate of the American Farm Bureau

"We have a proven leader to head the PFA staff," President Biggs commented "Charles Ord has had valuable experience (11 years with Farm Bureau) on the field staffs of the Illinois Agricultural Association (Farm Bureau) and the Iowa Farm Bureau Federation

The new executive head assumed his PFA position September 18 at the Camp Hill, Pa. office.

A native of Illinois, Mr Ord started his work with the Farm Bureau organization in his home state of Illinois, where he served as county secretary of the Edgar County Farm Bureau. Later he was employed by the Iowa Farm Bureau as a fieldman in Jasper County, Iowa, and was promoted to regional fieldman over Region Five in Southwestern Iowa

Born and reared on an Illinois general grain and livestock farm, Ord graduated from McKendree College, Lebanon, Ill. with a Bachelor of Science Degree in chemistry. Following graduation, he entered the U S Air Force, being discharged 4½ years later with the rank of captain.

His first job after his military service was with the McDonnell Air Craft Corp in the Process Engineering Department in St Louis, Mo

Ord is married to the former Anita Boyd of Cobden, Ill Mrs Ord's parents, Mr and Mrs Orin Boyd are partners in the J J Boyd and Sons Fruit Farm in Cobden Ill The Ords have one daughter, Gineen, who is a high school sophomore

Registered Ayrshire Completes Records

In the herd of C Harold Gable & Son, R D 1, Elverson, Pa. a five-year-old registered Ayrshire cow named Conebella Ruth has completed an official milk production record of 16,910 pounds, with 658 pounds of butterfat, on twice daily milking for 305-day DHIR testing period This record is one of many being made by an increasing number of registered Ayrshires on the Ayrshire Breeders' Association official DHIR testing program

Ruth's record is 2¼ times the national average for all dairy cows The Ayrshire breed is noted for persistent, profitable production of nutritious, quality milk

Also in the herd are the following cows and their records:

Conebella Champion 2nd, 9y, 15,450 m, 735 f; Conebella Pat. 5y, 14,670 m, 533 f, Conebella Don's Sue, 4y, 14 510 m, 676 f, Conebella Tor's Nell, 4y, 13,490 m, 537 f, Conebella Mamie, 6y, 13,140 m, 568 f, Conebella Pete's Daisy, 4y, 12,225 m, 580 f.

Several dairy foods were consumed in record-breaking quantities during 1966 Consumption of cheese, for example, was at an all-time high of 9.9 pounds per person — up nearly one-half pound from a year earlier.

POULTRYMEN!

PERFORMANCE IS THE KEY TO LOW COSTS

BEST OF THE LAMPETER STEER SHOW. (left) James Greider, 11-year-old son of Mr. and Mrs. C. Robert Greider, Columbia R2 with his grand champion Black Angus. (right) Reserve grand champion, a hereford, was shown by Cheryl Brubaker, 13-year-old daughter of Mr. and Mrs. Raymond Brubaker, 206 Rohrerstown Road. L. F. Photo

Eleven-Year-Old James Greider Wins Steer Title At Lampeter

An eleven-year-old 4-H'er with only his second project steer took best-of-the-show honors Wednesday evening, at the West Lampeter Community Fair Baby Beef Show held in the community park at Lampeter.

James Greider, son of Mr. and Mrs. C. Robert Greider, Columbia R2, topped the 4-H Angus class and went on to the grand championship of the show.

After giving the frisky black baby the traditional slap on the rump, Judge Ben Morgan, Extension Livestock Specialist from Penn State, went to a Hereford for his reserve champion. This 4-H red, White-Face was shown by Cheryl Brubaker, 13-year-old daughter of Mr. and Mrs. Raymond Brubaker, 206 Rohrerstown Road.

Only two FFA steers were in the show, a Hereford and an Angus, shown by Mike Smucker, Ephrata R2 and Larry High, 346 E. Main St., Leola, respectively.

Carol Ann Hess, Strasburg R1, won the showmanship contest and Dale Bushong, Columbia R1, won the top fitting and reserve showmanship titles. Larry Herr, 840 Penn Grant Road, was reserve showman.

The 34-head show had 17 Angus, 14 Herefords and 3 Shorthorn steers. Placings by class are:

FFA Angus, 1, Larry High, 346 E. Main St., Leola.

FFA Hereford, 1, Mike Smucker, Ephrata R2.

4-H Angus, 1, James Greider, Columbia R2, grand champion; 2, Carol Hess, Strasburg R1; 3, Dale Bushong, Columbia R1; 4, Jeffrey Greider, Columbia R1; 5, Harold Welk, Strasburg R1; 6, Eddie Hess, Strasburg R1; 7, James Noll, Centerville Road; 8, Bradford Howell, Hessdale;

234 CORN HARVESTER

A really new kind of corn harvester, the Model 234 has all the corn-saving features of a combine cornhead, plus the versatility of quick-change rear units for shelled corn, husked or snapped ears.

No other picker has a self-contained power-mounted universal frame—it fits 4 competitive makes of tractors, 11 different models. And the exclusive snapping unit has scalloped rolls and stripper plates similar to those used on IH corn heads . . . also available with conventional deep-pocket snapping rolls, interchangeable with scalloped rolls.

The 234 mounts and dismounts in less than 10 minutes, so your tractor is available for other chores. Save corn, save time, save money, with the 234 Corn Harvester. Stop in today.

SPENCE

DESSERTS

If you're a weight-watcher we know you'll enjoy the first three recipes we have for you today. Take the Strawberry Fluff Pie — whip in air and produce a less concentrated filling. Each serving of Strawberry Fluff Pie will be lower in calories than the same size piece of apple or lemon meringue pie. By cutting eight wedges you can further lower calorie count per serving.

STRAWBERRY FLUFF PIE

1 9-in. pie shell, baked
1 package frozen strawberries, thawed
1 envelope unflavored gelatin
¼ cup water
1 package (2 oz.) dessert topping mix, prepared

Drain strawberries, reserving syrup. Sprinkle gelatin on ¼ cup water to soften. Combine strawberry syrup and enough water to make 2 cups liquid; heat. Add gelatin, stirring until gelatin dissolves. Refrigerate until mixture mounds when dropped from spoon. Prepare dessert topping mix according to instructions on package. Beat in gelatin mixture. Fold in strawberries, pile into pie shell. Refrigerate until ready to serve.

* * * *

Peach Tarts provide protein, carbohydrate, fat, vitamins and minerals. For even fewer calories, fresh or water-packed peaches can be substituted.

PEACH TARTS

1½ cups sifted enriched flour
¾ teaspoon salt
½ cup shortening
3–6 tablespoons water
1 package (2¾ oz.) custard mix, prepared
1 package (10 oz.) frozen peach slices, thawed and drained

Sift together flour and salt. Cut in shortening until pieces are size of small peas. Sprinkle with water, a little at a time, mixing lightly until dough begins to stick together. Turn out onto lightly floured surface and press together. Roll out ⅛-inch thick. Cut 8 or 9 circles; form over tops and sides of inverted muffin tins. Prick bottoms and sides; bake in preheated 450 degree oven, 10 to 12 minutes, or until lightly browned. Remove from tins and cool on wire racks. Pour prepared custard mix into cooled shells. When firm, cover tops with peach slices. Refrigerate until ready to serve.

PINK LEMONADE CREAM PUFFS

¾ cup water
6 tablespoons butter
¾ cup sifted enriched flour
Dash salt
3 eggs
1 envelope unflavored gelatin
¼ cup water
1 can (6 oz.) frozen pink lemonade concentrate
Whipped topping

Bring water and butter to boil in heavy saucepan, stirring until butter melts. Add flour and salt all at once. Reduce heat. Cook, stirring constantly, until mixture is smooth and forms a soft ball; 1 to 2 minutes. Remove from heat and cool slightly. Add eggs, one at a time, beating well after each addition until batter is smooth and shiny. Drop by tablespoons onto lightly greased baking sheet. Bake in preheated 400 degree oven, 25 to 30 minutes, or until golden brown. Cool on wire racks. Sprinkle gelatin on cold water to soften. Combine lemonade concentrate and enough water to make 2 cups liquid, heat to boiling. Remove from heat, mix in gelatin until well-blended. Chill. Meanwhile, make Whipped Topping. Fold in gelatin mixture. Cut tops off cream puffs and fill. Replace tops; refrigerate until serving time. Makes 12 cream puffs.

If you don't have to watch calories, this Surprise Peach Kuchen is for you.

SURPRISE PEACH KUCHEN

2 cups sifted regular all-purpose flour
½ cup sugar
4 teaspoons baking powder
¾ teaspoon salt
¼ teaspoon mace
1 egg
1 cup milk
¼ cup (½ stick) butter, melted

TOPPING:

1½ cups thinly sliced fresh peaches
1 tablespoon sugar

Lanchester Pony Club

The Lanchester Pony Club announced their new executive committee this week. They are: New members, Mr. and Mrs. Karl Groff; Mr. and Mrs. John Gill; Mr. and Mrs. Donald Wallace. Old Members, Mr. and Mrs. John Waters; Mr. and Mrs. John Henkel; Mr. and Mrs. John Weir and Mr. and Mrs. Henry Skiles.

This committee met on September 16. Among the items discussed were five new members — Suzanne Huskey, 6, Elkton, Maryland; Scott Grace, 11, Coatesville, Pa; Patti Copeland, 14, Coatesville; Janet Gill, 19, Morgantown; Linda Lewis, 25, Wakefield. Linda is an associate member which means she can enjoy all of the programs except riding.

Lanchester is going to host a one day event with Brandywine Pony Club on Saturday, October 28, 1967, at 9:00 a m. This will consist of dressage, inspection, cross country and stadium jumping. This will be the first time the cross-country course has been used for competition.

ABOUT WHAT TEMPERATURE IS CONSIDERED SAFE FOR THE STORAGE of most perishable foods? Try to keep your refrigerator below 45 degrees F. Many people become severely ill each year, even die, from eating spoiled foods.

For The Farm Wife

(Continued from Page 18)

1 teaspoon cinnamon

GLAZE:

2 tablespoons sugar
¼ teaspoon grated lemon rind
1 cup dairy sour cream

Into a bowl sift together flour, sugar, baking powder, salt and mace. Beat together egg and milk; stir in butter; add to dry ingredients and stir just until blended. Spread batter in buttered baking dish, 12x7½x2-inch To prepare Topping: Arrange peach slices on rows on dough. Mix together 1 tablespoon sugar and cinnamon; sprinkle over peaches. Bake in a preheated 350 degree oven 35 minutes. To prepare Glaze: In a bowl gently blend sugar and lemon rind into sour cream; spread evenly over Kuchen. Return to oven 3-4 minutes to glaze sour cream. Cool 10 minutes on wire rack. Cut in squares and serve warm. After completely cooled, keep in refrigerator. Reheat to serve. Makes 10-12 servings.

NOTE: Drained canned or frozen peaches may be substituted for fresh. Cut into thin slices.

* * *

FROZEN LEMON PIE

1¼ cups vanilla cooky crumbs
2 tablespoons butter or margarine
1 cup whipping cream OR
⅔ cup evaporated milk
3 eggs
⅔ cup sugar
⅛ teaspoon salt
¼ cup lemon juice
1 tablespoon lemon rind, grated

Mix 1 cup cooky crumbs with the fat, spread in an 8-inch pie pan or a refrigerator tray. Chill. Chill whipping cream or evaporated milk in bowl in freezer compartment until ice crystals form around edges Beat eggs. Add sugar, salt, and lemon juice Cook over hot water until thick, stirring constantly Cool Add lemon rind Whip the cream or evaporated milk. Fold whipped cream or milk into the egg mixture Pour egg mixture over crumb crust Top with remaining crumbs Freeze. Cut into wedges to serve.

Calories per serving—About 360 if made with whipped cream; 260 with whipped evaporated milk.

THOMAS

Daily Care Tips For Ironwear

Wash ironwear utensils with hot suds and rinse promptly after use.

Dry carefully and thoroughly to prevent rust.

Soak 10 to 15 minutes in warm suds to remove food that sticks to the surface. Then scrape with wooden spoon or rubber scraper

If it's necessary to scour with cleanser, you'll need to season the utensil with melted, unsalted vegetable shortening and heat for several hours in the oven at 250 degrees.

If you plan to store the utensil for some time, it's best to coat it first with unsalted oil or shortening.

For A Juicy Veal Roast Everytime

Make sure the veal roast has a little fat covering or brush its surface with some extra fat.

For a juicy roast, place meat, fat side up, in a pan Cover top of roast with strips of bacon or salt pork, and cook in oven at 325 degrees until tender.

Characteristics and Care of Stretch Fabrics

Garments made of fabrics with stretch fibers look like ordinary clothes but they are more comfortable.

Stretch yarns add more body, give better surface texture, and more freedom from wrinkles.

They require little or no pressing because they quickly return to original size and shape when released from tension after wear. This prevents bagginess

Stretch fabrics are easy to keep clean. But it's best to buy garments whose labels promise safe washability. Follow the manufacturer's directions for laundering

In general, the most tender fiber in a fabric determines washing method and water temperature

Heavier fabrics in sturdy weaves can withstand longer wash and rinse cycles than sheer, more delicate stretch fabrics

Two important things when borrowing money

You need a sharp pencil plus the specialized financial advice of Farm Credit to determine how your financial needs can best be served. Farm production must be maintained, even increased if possible. Providing the financing to insure this is Farm Credit's job. Farm Credit loans are available now for any sound farm need. And, at realistic rates. Farm Credit interest is based on the unpaid balance of the loan. That saves you money.

Steers And Hogs Sell Good At Solanco Sale

The 945-pound grand champion Angus, owned and shown by Donald Swinehart, Quarryville R1, brought 72 cents a pound last Friday at the Solanco Fair Baby Beef and Fat Hog Sale. This was two cents higher than last year's champion. The buyer was Truman Ferguson, of Ferguson and Hassler, Quarryville. Total price was $680.40.

Ronald Rank's grand champion pair of Yorkshire hogs weighing 460 pounds, were sold for 44 cents a pound, or $202.40, to Joe Bowman, of IGA Food Market, Quarryville.

The FFA reserve grand champion steer, weighing 1110 lbs. and owned by Joe Linton, Quarryville R3, was sold to Lancaster Union Stock Yards for 30 cents or $333 for the Hereford.

Lewis Kreider's reserve grand champion pen of hogs, weighed 510 pounds and brought 27 cents a pound for a total of $86.70.

The steers brought a total of $6,816.14 and the pens of hogs, $1,727.42.

Samuel W. Hippey, of Willow Brand Meat Products, Willow Street, bought the other 12 pens of hogs for a total of $1,525.

In the steer sale, Willow Brand and Musser's each bought four animals, and New Holland Sales Stables bought two. Other supporters were Lancaster Union Stock Yards, Vintage Sales Stables, James Kreider, First National Bank of Strasburg, Joe Bowman, auctioneers Kreider and Diller, Kersey Bradley, and Lancaster County Farmer's Bank.

J. Everett Kreider and Carl Diller served as auctioneers, selling the 21 steers and 13 pens of hogs in one hour. Vo-ag teachers J. Richard Wood and William Fredd served as ring announcers, with Leon Kreider as ring clerk.

Passing Information On To Classmates

by Clair Zerby

This year the Warwick Agriculture department has the distinction of having a student from the American Field Service in its classes. He is 17-year old Tahir Guner of Tekirdag, Turkey. Tahir is living on the Charles Keller Farm, Lititz R2.

Some interesting things Tahir has passed on to his fellow classmates about life in Turkey are very interesting. His father is a farmer, having eight dairy animals and six hundred sheep. The dairy animals average about six to eight pounds of milk per day. They are kept mainly for meat purposes. Also, all of the cattle in the village, a population of around 200 people, are grazed in one group by one or several herders.

Many of the sheep are milked and the milk is made into cheese. The average production per day runs around two pounds and the average wool clip is approximately four pounds per head.

The crops raised are wheat, barley, some corn, sunflowers and melons. The land is more nearly level, with rainfall being a limiting factor in getting top yields. The corn doesn't grow as tall as it does in Lancaster County. After corn is picked, the cattle are allowed to go into the fields and graze on the stalks.

Tahir is presently spending some of his class time learning to judge dairy cattle, beef steers, market hogs and lambs and laying hens. He is very anxious to see the Lampeter Fair and to be a participant in the Livestock Judging Field Day. He is also anxious to learn how the people of Lancaster County go about being some of the best farmers in the world. He hopes to take some of the ideas that he sees and learns along back to his country and to himself become a better student of agriculture. He plans to continue his education in one of the technical schools or colleges in Turkey and then either become a farmer or work for the government in the agricultural field.

GETTING READY FOR THE LAMPETER FAIR. These senior boys in the Warwick Agriculture Department are shown preparing for the judging contest which was held Thursday at the W. Lampeter Fair in Lampeter. (Left to right) Tahir Guner, Exchange Student from Turkey, Howett Seiverling, Warren Buch, Kent Fritz, (with the lamb); Larry Kreider, and Clair Zerby, Vo-Ag teacher.

Public Auction

58-ACRE LANCASTER COUNTY FARM

WEDNESDAY, OCTOBER 4, 1967

at 2:30 P.M.

Located 8 miles West of Lancaster, 2½ miles East of Mount Joy, near Elm Tree School, ½ mile Northeast of 230 By-Pass, Lancaster and Elizabethtown bus every hour near by.

NO. 1. Beautiful grand old Colonial limestone home, Walls two feet wide, large colonial round side porch columns, 11 rooms, center hall, 3 fire places, all conveniences, 2-car garage, 2 acre lawn, with area lights and shade, a real old homestead well taken care of, will stand another 150 years.

NO. 2. The farm buildings consist of a large stone and frame bank barn, 125 feet long, also a practically new 3-story cow barn, stanchions and cleanout equipment, tobacco shed, part has cellar, can hang 15 acres, silo, several good poultry houses, and a well of never failing water, excellent horse or stock farm.

NO. 3. A portion of above mentioned farm consisting of 37 acres lays adjacent to south side of macadam road, is also very desirable limestone land, all in high state of cultivation. The land frontage along public road of several thousand feet is quite an asset, would also be a suitable location for a church home or a memorial park, easy access to a number of towns, also water and sewer lines, easily accessible.

Note this property will be offered divided and also as a whole.

Property will be open for showing every Wednesday and Sunday, from 3 to 6 P.M. and on day of sale.

Safe Hunting Tips Offered By Specialist

Fall and hunting go together. Sometimes, hunting and accidents also go together.

To help avoid the likelihood of a hunting accident, Miss Audra Robertson, University of Missouri extension safety specialist, offers the following tips.

—Wear bright, blaze-orange hat and vest. They are easily seen by other hunters.

—When crossing a fence alone, unload your gun and lay it down. Cross the fence, then retrieve the firearm — stock first.

—When crossing a fence with a companion, one person holds both guns, muzzles up, while the other crosses the fence.

—Unload your gun or open the action before you cross or jump a ditch or small stream.

—Keep the muzzle pointed forward, either up or down, not horizontal, while carrying a gun.

—Constantly check the area in which you are hunting for other people, houses, and livestock.

—Keep the gun barrel free of snow, mud, or other restrictions.

—Know your companions' location at all times.

—Be sure it's game before you aim.

meat is / MUSCLE AND MONEY FOR HOG PRODUCERS

As a Wayne Dealer we can help you put

- MORE MUSCLE ON YOUR HOGS
- MORE MONEY IN YOUR POCKETS

Yes, meat is muscle but muscle is protein. So, to start pigs, grow shoats and finish hogs profitably you have to supplement and balance the ration to get maximum protein at minimum cost.

Wayne scientifically formulates pig starters, pig balancers and hog balancers to meet the exact nutritional needs at each growth stage. Secondly and equally important, Wayne tailors feeding programs to meet your type of management: confinement, partial confinement or pasture. To keep your production up and your cost down.

We'd like to prove that Wayne programs increase your pork production profits. Let's talk; your only cost: a few minutes time.

Archery Deer Season Open Today, Sept. 30

Bow and arrow hunters will open Pennsylvania's 1967-68 seasons for big game when they start stalking whitetail deer this Saturday.

The state has one of its largest deer herds in years, and conditions are favorable for archers to establish a new record for number of whitetails taken by bowmen in a single license year. During the 1966-67 seasons, archers set the present record as they took 2,337 deer.

There will be 24 hunting days during the regular statewide archery deer season. The regular season closes October 27, one day before the opening of the general small game season. Sunday hunting is prohibited.

An extended 11-day archery season will be held starting December 26. Use of bow and arrow is also permitted during the regular antlered and antlerless seasons.

Hunting hours for bowman will be from one-half hour before sunrise until sunset.

As in the past, archers are permitted to take one deer of either sex. If a hunter is successful in bagging a deer during the archery season, he is not permitted to kill another whitetail during the regular gunning season.

In addition to a regular resident or non-resident hunting license, an archery license is required to hunt deer with bow and arrow. Archery licenses are available from any county treasurer for $2.15 or from the Department of Revenue, Harrisburg, for $2.00.

Hunters are reminded that there is lush vegetation due to increased rainfall this year, and that dense cover reduces visibility. Bowmen should be extra cautious and sure of their target while chasing whitetails.

HUNTING CALENDAR

Sept. 30 – Archery Deer Season Opens
Oct. 2 – Wilson's or Jacksnipe Season Opens
Oct. 7 – Goose & Brant Season Opens, except Crawford and Erie Counties.
Oct. 14 – Goose & Brant Season opens, Crawford and Erie Counties, including Pymatuning Waterfowl Area.

We have Ful-O-Pep Pig Bracer
With Aureo S. P. 250
When you consider the investment you have in each little pig farrowed, it's easy to realize why early losses—largely due to scouring—are so costly.
New Ful-O-Pep Pig Bracer has Aureo S. P. 250, the new antibiotic-sulfa combination that aids in the treatment of bacterial enteritis in swine and prevention of the disease during time of stress. This combination also aids in the reduction of the incidence of cervical abscesses and the maintenance of weight gains in the presence of atrophic rhinitis.
Where scours are a problem—either in nursing pigs or following the stresses of vaccination and weaning—Ful-O-Pep Pig Bracer may solve your problems.

Lancaster 4-H Riders Win In District Event

Twelve Lancaster 4-H'ers won the right to show in the Pennsylvania 4-H Horse Show in Harrisburg in November by winning last Saturday in the District 10 Light Horse and Pony Show in Chester County.

In order to qualify for the Harrisburg event to be held Nov. 10-11 in the Farm Show Building, the contestants had to place first or second in the District Show at Ludwig's Corner Horse Show Grounds.

Six counties sent entries to the district competition. The counties, besides Lancaster, were Montgomery, Chester, Lebanon, Delaware and Bucks Counties.

The Lancaster first or second place winners were:

(English Pleasure): 1 – Cindy Eckenroth, Terre Hill, "Cindy's Pride"; 2 – Donald Stock, Millersville, "Ensign's Parader."

(Saddle Seat Equitation, Jr. Div.): 1 – Donald Stock.

(Saddle Seat Equitation, Sr. Div.): 1 – Cindy Eckenroth: 2 – Kathy Ranzinger, Lancaster, "Mr. Highbrow".

(Clover Leaf Barrel Race): 2 – Ronald Kreider, Manheim, "Goldie".

(Western Pleasure): 1 – Cathy Reinhold, Columbia, "Pokey"; 2 – Jerry Nessinger, Reinholds, "Buck-A-Boy".

(Stock Seat Equitation, Sr. Div.): 1 – Ann M. Hinerdeer, Lancaster, "Marion's Buddy".

(Western Reining): 1 – Keith Sheffer, Columbia, "Silver Pheasant"; 2 – Bob Hershey, Manheim, "Sally".

(Pole Bending): 1 – Randy Glick, Bareville, "Golden Show Girl".

(Yearling): 1 – Joyce Hinerdeer, Lancaster, "Katie Allred".

(Western Pleasure, over 14 0 hands): 2 – Ann M. Hinerdeer.

(County Team) 2 – Lancaster County: Randy Glick, Ronald Kreider, Patricia Young, Lancaster, "Joe's Cat".

● Have You Heard?

(Continued from Page 19)

Use hot water for colorfast cottons and for synthetic fiber yarns

Use warm water for wools, and extra soap or detergent because wool absorbs more suds than other fibers.

If bleaching is necessary, use the type bleach recommended for nylon

Most stretch garments can be dried in an automatic dryer. Select the temperature proper for the fibers.

If touchup ironing is needed, press lightly under a damp cloth. Set the iron temperature at nylon or cool, or use a steam iron.

You can thoroughly dry stretch slipcovers before replacing them on furniture because the stretch fabric assures a smooth, snug fit without dampshaping

Buying On Installment?
